Teaching Faculty Position in Civil and Environmental Engineering

The Department of Civil and Environmental Engineering at Worcester Polytechnic Institute (WPI) is seeking to fill a non-tenure track teaching position in the area of structural engineering. Responsibilities include teaching three undergraduate courses (preferably reinforced concrete design, prestressed concrete design, and matrix structural analysis), advising senior-year capstone projects (termed the Major Qualifying Project or MQP), and teaching a graduate-level course in a topic related to structural analysis and design. The successful candidate should have an earned doctorate in Civil/Environmental Engineering at the time of appointment. Professional and teaching experience is desirable. Questions should be directed to Professor Tahar El-Korchi, Head of the CEE Department, <<mailto:tek@wpi.edu>>.

Applications should be directed to Marylou Horanzy, Assistant to the Head of the CEE Department, <<mailto:mghoranzy@wpi.edu>>.

WPI, founded in 1865 and located one hour west of Boston, is a highly selective private university with an undergraduate student body of over 3,800 and 1,600 full-time and part-time graduate students enrolled in more than 50 Bachelor's, Master's, and Ph.D. programs. WPI's curriculum engages students and faculty in real-world problem solving, often at one of WPI's global project centers. U.S. News and World Report consistently ranks WPI among the top national universities. Further information about WPI and the department may be found at <http://www.wpi.edu/>.
