UNIVERSIDAD DE CHILE

## FACULTY POSITION IN CIVIL ENGINEERING

The Department of Civil Engineering at the Faculty of Physical and Mathematical Sciences (FCFM) of the University of Chile invites applications for a full time faculty position in Civil Engineering, starting no later than March 1st, 2014. Candidates with research interests in:

- Geotechnical Engineering
- Materials in Structures and Construction
- Structural Engineering

will be considered. Responsibilities of the selected applicant will include: developing an externally funded, internationally recognized research program; teaching at the undergraduate and graduate levels; supervising graduate student research; and establishing links with the industry and public agencies.

The University of Chile is the largest research institution in Chile and one of the leading universities in South America. The FCFM develops research and teaching activities in basic sciences (physics, mathematics, biology, chemistry and geology) as well as in nine fields of engineering, thus providing an excellent environment to perform cutting edge research on multidisciplinary problems. The Department of Civil Engineering has traditionally prepared engineers who after graduation fill the high ranks of (or take leading roles in) public agencies and private companies, and the quality of its teaching and research is periodically recognized in national and international rankings. The University of Chile is located in Santiago, the country's capital, which offers a variety of cultural activities, has a mild and sunny weather, and it is located within one hour from both the imposing Andes Mountains and the Pacific Ocean.

### Application requirements:

1. Applicants should possess a PhD degree (at the moment of joining the faculty), and a demonstrated ability and commitment to excellence in independent research and teaching in the area of application. Spanish language skills are desired at the moment of hire or soon thereafter.
2. Candidates should submit a complete package including CV, proof of academic and/or professional degrees, three recommendation letters from experts in the academic field, a brief research and teaching plan for undergraduate and graduate level, and copies of the three most relevant publications.

### Application deadline: September 7, 2013

Academic hierarchy and starting salary will be assigned in accordance to the candidate's academic qualifications. For further information please contact Dr. Ricardo Herrera at [dicesco@ing.uchile.cl](mailto:dicesco@ing.uchile.cl)
