

# ***The Citadel***

## ***Charleston, South Carolina***

### **Tenure Track Faculty position in geotechnical, environmental, or surveying/geomatics**

The Citadel, The Military College of South Carolina invites applications for tenure-track positions at the Assistant/Associate Professor level in the Department of Civil and Environmental Engineering. The Citadel, The Military College of South Carolina, is a unique public institution with the mission of educating principled leaders through its Corps of Cadets and College of Graduate and Professional Studies programs. Located in historic Charleston, S.C., The Citadel offers undergraduate and graduate degrees in the humanities, business, math, science, engineering and education. With an enrollment of more than 2000, the Corps of Cadets is the nation's largest military college program outside the service academies. All cadets are educated within a classic military system and about 40 percent of the graduating seniors earn military commissions. The remaining graduates attend graduate school or enter the job market. The Citadel Graduate College, which is noted for Citadel excellence in a civilian environment, serves residents of South Carolina's beautiful Lowcountry. Academic programs at the college are complemented by a strong commitment to service and emphatic support of an honor code that calls upon a cadet not to lie, cheat or steal or tolerate those who do. Since its founding in 1842, The Citadel's emphasis on character as well as intellect has produced generations of graduates who have served their nation, their professions and their communities with distinction.

### **Minimum and Additional Requirements:**

Minimum qualifications include an earned engineering degree from a college that grants an ABET accredited BS in civil or environmental engineering, and a PhD in civil engineering or engineering education. The successful candidate will have demonstrated a potential and interest in undergraduate education; and a strong potential for and commitment to student advising, supporting our nationally recognized student chapter of ASCE, and continuous professional development in both civil engineering and engineering education. Professional registration or potential for and strong commitment towards obtaining it should be demonstrated. The applicant must be an effective communicator and be able to serve as a role model for students in the Corps of Cadets and to other students in our day and evening programs.

### **Preferred Qualifications:**

A preference will be given to candidates with a background in the areas of geotechnical, environmental and surveying/geomatics. Prior teaching and professional design/field experience are desirable.

Anticipated hiring date is August 2015. Applications received by January 30, 2015 will be assured of consideration; however, applications will be considered until all the positions are filled. In addition to the on-line application (<http://www.jobs.sc.gov>), applicants should send a complete resume including names, address and telephone number of three references to:

The Department of Human Resources  
Attn: Angie Rochester/Civil & Environmental Engineering  
The Citadel  
171 Moultrie Street  
Charleston, SC 29409

The Citadel is an affirmative action/equal opportunity employer actively committed to ensuring diversity in all campus employment. Qualified women and minorities are encouraged to apply.
