

Wayne State University
Department of Civil and Environmental Engineering
CONSTRUCTION ENGINEERING AND MANAGEMENT LECTURER POSITION

The Department of Civil and Environmental Engineering at Wayne State University, Detroit, Michigan, is searching for a qualified candidate to fill a non-tenure track lecturer position in the area of construction engineering and management. This is anticipated as a two-year position, and job duties will include teaching, scholarly research, and participation in departmental service, as well as leading and managing the MSCE program in the construction management specialization. An earned PhD in civil engineering or construction engineering and management is required, with a track record of teaching, research and publications. Expertise in the areas of construction project management, scheduling, estimating, safety, quality, productivity and BIM is considered central to successfully meet the expectations of this position. The ability to incorporate relevant software such as AutoCAD, Revit, NavisWorks, and Primavera P6 in the classroom is crucial. Industry experience is highly desirable. The position is available beginning Fall 2014.

The Department has 11 full time faculty and about 220 students pursuing B.S., M.S., and Ph.D. degrees. Graduate specialization is offered in structures, environmental, geotechnical, transportation and construction management. Wayne State is an urban research university located in the vibrant Midtown section of the city. More information on the Department can be found at <http://engineering.wayne.edu/cee/>.

Interested individuals should apply by submitting their resume, which should list the courses they have taught, their project management experience, publications, research activity, certifications (e.g. PE, PMP), and any other relevant experience and qualifications. Two letters of reference must be included in the application package. It is requested that all documents be assembled and submitted as a single PDF file. Evaluation of the applicants will begin immediately and the search will continue until the position is filled. Applications are accepted only through the University's online hiring system at <https://jobs.wayne.edu> (Posting #040317).

WSU is an Equal Opportunity and Affirmative Action Employer. Candidates from groups underrepresented in engineering are strongly encouraged to apply.
