## Transportation Engineering Faculty Position

Applications are invited for a 12-month (renewable) non-tenure track assistant professor position in the Department of Civil and Construction Engineering at Western Michigan University in the area of transportation engineering. The successful candidate will teach undergraduate and graduate courses, conduct research, and supervise graduate students. An earned bachelor's degree and doctorate in civil engineering or a closely related field are required. The selected individual will work with the current transportation faculty on a number of existing research projects including a recent USDOT Research and Innovative Technologies (RITA) Tier 1 Center award. Western Michigan University is a Carnegie doctoral research extensive institution serving 25,000 students at its main and branch campuses. Kalamazoo is in a metropolitan area in southwestern Michigan, midway between Chicago and Detroit, with a population of 200,000. Candidates should have demonstrated expertise in one or more of the following areas:

- Multimodal transportation systems
- Non-motorized transportation
- Intelligent Transportation Systems
- Planning and operation of transportation networks
- Traffic safety
- Sustainable transportation and air quality.

For application procedures, visit our website: [www.wmich.edu/hr/careers-at-wmu.htm](http://www.wmich.edu/hr/careers-at-wmu.htm). Applications must include: a cover letter highlighting applicant's qualifications; curriculum vitae along with names and affiliation of three references. The starting date could be anytime between May and August in 2014.

Review of applications will begin on **January 10, 2014** and continue until the position is filled.

*Western Michigan University is an affirmative action/equal opportunity employer consistent with applicable federal and state law. All qualified applicants are encouraged to apply.*
