orary doctorate from ČVUT, Prague, Nov.14, 1991), Bul-
letin of ČVUT No. 3 (Dec.), 5-9; abbreviated English
version: Materials and Structures (Paris, RILEM) 25

Education (ASEE) Centennial Annual Conf. Proc., held

(73 (6), 334-336.

a financování státního výzkumu”). Current Events
(Události), Techn. University Brno (VUT v Brně), 10
(1), 10–11.

výzkumu z veřejných prostředků—Pohled z Ameriky),
Stavitel (The Builder), Dec., 49–50 (update of G4).

ASME 73 (March), 181–182.

Timoshenko Medal, ASME International Mechanical En-
grg. Congress, Orlando (Walt Disney Dolphin Hotel),
2010; posted 2009 at Appl. Mech. Division website
<www.iMechanica.org> at Harvard University.

5 Published Biographies and Volumes Dedicated to Bažant

A1. J. P. Dempsey and G. Pijaudier-Cabot, Guest Ed-
itors (1988), Special Topics in Structural Mechanics of
Geomaterials, A Volume in Honor of Professor Zdeněk P.
Bažant, Special Issue of Int. J. of Solids & Structures 35
(31–32), Nov., 4019–4350.

A2. G. Pijaudier-Cabot, Z. Bittnar and Bruno Gérard,
Editors (1999), Mechanics of Quasi-Brittle Materials and
Structures, A Volume in Honour of Professor Zdeněk P.
Bažant’s 60th Birthday”, Hermes Science Publications,
Paris (446 pp.).

2 (5), p. 54.

A3’. Editorial, “Prof. Bažant Visiting CTU (Czech Technical University) in Prague” (Professor Zdeněk P.
Bažant opět na ČVUT v Praze), Pražská Technika 2003
(No. 2), 10–11.

(Evanston Northwestern Healthcare) 67 (2), 10–11.

Bažant.” Proc., National Academy of Sciences 101 (37),
13397–13399.

A8. G. J. Dvorak, Guest Editor (2006), Special Issue in Honor of Professor Zdeněk P. Bažant, Internat-

A9. C.K.Y. Leung and K. Willam, Guest Editors (2007), Special Issue dedicated to Z.P. Bažant, Engineer-
ning Fracture Mechanics 74 (1–2), pp. 1–280 (20 papers).

A10. Ta-Peng Chang and Jenn-Chuan Chern (2007).
Proc., Asian Special Workshop on Concrete Technology in Honor of the 70th Birthday of Prof. Zdeněk P. Bažant,”
National Taiwan University of Science and Technology,
Taipei, Nov. 2

let (in Czech).” Beton (Prague), Vol. 7, No. 6 (Dec.),
pp. 54–55.

A12. L. Vráblík and V. Kríštěk (2009). “Bažant’s col-
lapse analysis of bridge in Palau.” Beton 8, No. 1, p. 69.

6 Research Articles in
Conference Proceedings

........ a total of 216 proceedings papers.

tionen” (Analysis of creep and shrinkage of nonhomogeneous concrete structures), Proc. 7th Congress, Intern. Assoc. for
Bridge and Struct. Engrg., IABSE, held in Rio de Janeiro,
887-897 (Portugese transl.: Laboratório Nacional de Enge-
haria Civil, Trad. No. 218).

bung der rheologischen Eigenschaften von glasfaserverstärk-
ten Plasten” (A new model for rheological behavior of reinforced
plastics), Proc., Erste International-Tagung über GFP und
Epoxidharze, held in Berlin, Institut für Kunststoffe D. A.
W., Paper E3/1.

tics and fibre-glass plastics.” Proc., Conf. on Exper. Methods
of Investigating Stress and Strain in Structures, held at Techn.
Univ. Prague, Building Res. Inst., 797–809.

shear bands”, *ibid.*, 415–425 (also Preprints, 1988).

ternational Conference held in Tucson, AZ, Jan.), ed. by C.S. Desai et al., 377–385.

creep.” ibid, 427–432.

probabilistic size effect, its asymptotic properties and
numerical applications." Proc., European Congress on
Computational Methods in Applied Science and Engineering (ECCO-
MAS 2000), Barcelona, pp.1–19.

effect and reliability of design: Case study of flexural
strength of concrete." Proc., 9th Intern. Conf., CONCREEP-6, held at MIT, Cam-

erature effect on concrete creep modeled by microprestress-
solidification theory.” Creep, Shrinkage and Durability Me-
chanics of Concrete and Other Quasi-Brittle Materials.
(Proc., 6th Intern. Conf., CONCREEP-6, held at MIT, Cam-

 laxation spectrum of concrete creep and its incorpo-
ration into microplane model M4.” Creep, Shrinkage and Durabil-
ity Mechanics of Concrete and Other Quasi-Brittle Materials.
(Proc., 6th Intern. Conf., CONCREEP-6, held at MIT, Cam-

(2001). "Size effect in fracture of sandwich structure compo-

model for size effect in quasibrittle failure based on extreme

crete Fracture Test for a Standard." NSF Workshop on Con-
crete Fracture Test Standard (handouts), organized by ACI
Committee 146, Fracture Mechanics (K. Gerste, chair), Captiva, Florida (25 pp.).

“Experimental-analytical size-dependent prediction of modu-
ulus of rupture of concrete.” Non-Traditional Cement and Con-

effect and reliability of design: Case study of flexural
strength of concrete." First Int. Conf. on Bridge Maintenance,
Safety and Management (Int. Assoc. IABMAS), Uni-
versitat Politècnica de Catalunya, Barcelona, 1–8.

tic models for deformation and failure of quasibrittle struc-
tures: recent advances and new directions." Computational
Modelling of Concrete Structures (Proc., EURO-C Conf., St.
Johann im Pongau, Austria), N. Bíčaníč, R. de Borst, H. Mang and G. Meschke, eds., A.A. Balkema Publ., Lisse, Nether-
lands, 583–598.

plates: Resolution of a paradox." Contributions to computa-
tions and experimental investigation of engineering materials
and structures (dedicated to Prof. Z. Bittnar’s 60th birthday), P.
Konvalinka and J. Máca, eds., Czech Technical University in
Prague, 2003 (summary of No. 422).
modeling of statistical size effect in quasibrittle structures.” Applications of
Statistics and Probability in Civil Engineering (Proc., 9th Int. Conf., ICASP-9, held in
resolved.” Proc., 14th Int. Conf. on Composite Materials, ICCM-14 (held in San Diego), 1–10.
recent progress.” Proc., 10th Int. Conf. on Composites/Nano Engineering (ICCE-10), D. Hui, ed., University of New Or-
leans, 869–872.
micromechanical concepts: Recent advances.” Fracture Mechanics of Concrete Structures (Proc., FraMCoS-5, 5th Int.
Conf. on Fracture Mech. of Concrete and Concr. Structures, Vail, Colo.), Vol. 1, V.C. Li, K.Y. Leung, Willam, K.J.,
Fracture Mechanics of Concrete Structures (Proc., FraMCoS-5, 5th Int. Conf. on Fracture Mech. of Concrete and Concr.
Computation and extreme value theory.” Fracture Mechanics of Concrete Structures (Proc., FraMCoS-5, 5th Int.
Conf. on Fracture Mech. of Concrete and Concr. Structures, Vail, Colo.), Vol. 1, V.C. Li, K.Y. Leung, Willam, K.J.,
lecture) Concrete under Severe Conditions: Environment and Loading (Proc., 4th Int. Conf., CONSEC’04, Seoul), B.H.
Oh, ed., Seoul National University, Seoul, Korea, 3–16.
on Advances in Computational & Experimental Engineering Science (Proc. of Int. Conf., ICCES’04, in Madeira),
initiation problems.” Proc. (CD) 11-th Int. Conf. on Fracture (ICF-11, held in Turin, Italy), A. Carpinteri, ed., Paper
40-6-1, pp. 1–6.
Effect on Probability Distribution of Structural Strength.” Safety and Reliability of Engrg. Systems and Structures (CD
Proc., 8th Int. Conf. on Structural Safety and Reliability, ICOSASS 2005, held in Rome), G. Augusti, G.I. Schueller
stochastic finite element modeling.” Computational Plastic-
ity (Proc., 8th Int. Conf. on Computational Plasticity—
COMPLAS 8, held at UPC, Barcelona), D.R.J. Owen, E.
Onate and B. Suárez, eds., pp. 156-159.
progress.” Creep, Shrinkage and Durability of Concrete and
Concrete Structures (Proc., 7th Int. Conf.—CONCREEP 7,
held in Nantes, France), G. Pijsander-Cabot, B. Gérard and P.
návrhové normy” (Size effect, its role in structural collapses and consequences for design codes), Proc., 12. Betonařské
dny (12th Concrete Days), Česká betonařská společnost ČSSF
(Czech Concrete Society), Hradec Králové, Czech Republic,
pp. 48-53.
& D. Roy, eds., Indian Institute of Science, Bangalore, India,
pp. 2-20.
numerical mesomechanical study.” Ibid., pp. 71–83.
Ibid., pp. 263–268.
wrinkling.” Marine Composites and Sandwich Structures.
(Proc., ONR Solid Mechanics Program Annual Review Meet-
ing, Y.D.S. Rajapakse, ed., University of Maryland, pp. 12–
20.
Annulus Fibrous.” Proc., 5th World Congress of Biomechanics
(held in Munich), D. Leipsch, ed. MEDIMOND, Bologna,
mechanics of scaling strength, lifetime and safety factors
of quasibrittle structures: nano to macro.” Proc., 8th HSTAM
International Congress of Mechanics. (Hellenic Soc. of Theor.
& Appl. Mech.), Univ. of Patras, Greece, N. Bazeos, D.L.
Karabalis, D. Polyzos, D.E. Beskos, J.T. Katsikadelis, eds.,
Proc., 3rd Structural Engineers World Congress, Bangalore, India, Nov. (slightly expanded version published, with authorization as article 473).
