Faculty Position
Structural Engineering/Mechanics

The Department of Civil and Environmental Engineering at Tennessee Tech University invites applications for a tenure-track faculty position at the rank of Assistant Professor to begin August 2013. The successful candidate will be expected to teach undergraduate and graduate level courses in structural engineering and engineering mechanics.

The TTU College of Engineering has recently established several new initiatives aimed at enhancement of quality in research and education which can be viewed at http://www.tntech.edu/engineering/researchfocusareas/.

Requires a B.S. in Engineering, a PhD in Civil Engineering or closely related field with emphasis in structural engineering or engineering mechanics; graduate level expertise in structural engineering or engineering mechanics; evidence of potential for excellence in teaching and scholarly activities; and excellent written and oral communication skills.

Preference will be given to those with a B.S. in Civil Engineering; professional registration or started the process of registration; and a demonstrated track record of excellence in teaching, peer-reviewed scholarly research and grantsmanship.

Applicants must apply online at http://www.tntech.edu/jobs and will be required to electronically upload a cover letter discussing the candidate's teaching, research, and professional goals, curriculum vitae, teaching philosophy, research plan, contact information for three professional references, and a copy of all transcripts (official transcripts required upon hire) at time of application. Review of applications begins November 19, 2012; open until filled.
