Faculty Position
Department of Civil and Environmental Engineering
Texas Tech University
Lubbock, Texas

The Department of Civil and Environmental Engineering at Texas Tech University invites applications for one tenure track assistant or associate professor position in the structures area of civil engineering. The position will be available beginning spring semester 2014.

Qualifications include: (1) an earned doctorate with a major in civil engineering or a closely allied field; (2) demonstrated ability and commitment to excellence in teaching, research, and professional service; and (3) evidence of capacity for significant scholarly achievements. Professional engineering registration, as well as industrial and/or consulting experience in design, is highly desirable. The successful candidate will be expected to (1) teach a range of courses including undergraduate courses in design and graduate courses in structural mechanics; (2) develop and sustain sponsored research programs; (3) supervise student research; and (4) engage in professional service activities.

The Civil and Environmental Engineering Department currently has 15 tenured faculty and 5 tenure track faculty, 442 undergraduates and 62 graduate students in its programs. The Department contains several nationally recognized research centers and institutes. Currently, the Department administers approximately $1.9 million per year in federally funded research. More information is available on our website at www.ce.ttu.edu.

Texas Tech is a comprehensive state university system. Total enrollment on the Lubbock campus is approximately 32,000. Lubbock, with a population of approximately 230,000, is renowned for its friendly people and pleasant climate.

The search committee will begin reviewing applications immediately and will continue the search until it identifies a successful candidate. To apply, go to http://jobs.texastech.edu and search for faculty job requisition no. 88405. Please upload (preferably in PDF format) [1] a cover letter, [2] detailed curriculum vita, and [3] other documents (as requested on the application website) including a statement of interest and professional goals and the names, physical and email addresses, and telephone numbers of three references.
